

# URBAN PATHWAYS

## Delivering on the New Urban Agenda

---

Uwe Schneidewind, Wuppertal Institute

Partnerships to deliver on the New Urban Agenda

WBGU Study „Humanity on the Move“

Integration of urban energy, mobility and resource management

Urban Pathways as tool for global cooperation

- Contribution to the Habitat III Process and the Policy Unit Urban Services and Technology
- Partnership with UN-Habitat and the German Association of Cities to develop joint activities to deliver on sustainable urban basic services
- Building on a number of international cooperation projects, facilitating city-to-city exchange and developing implementation concepts

# Integrated approach for urban energy, mobility and resource management

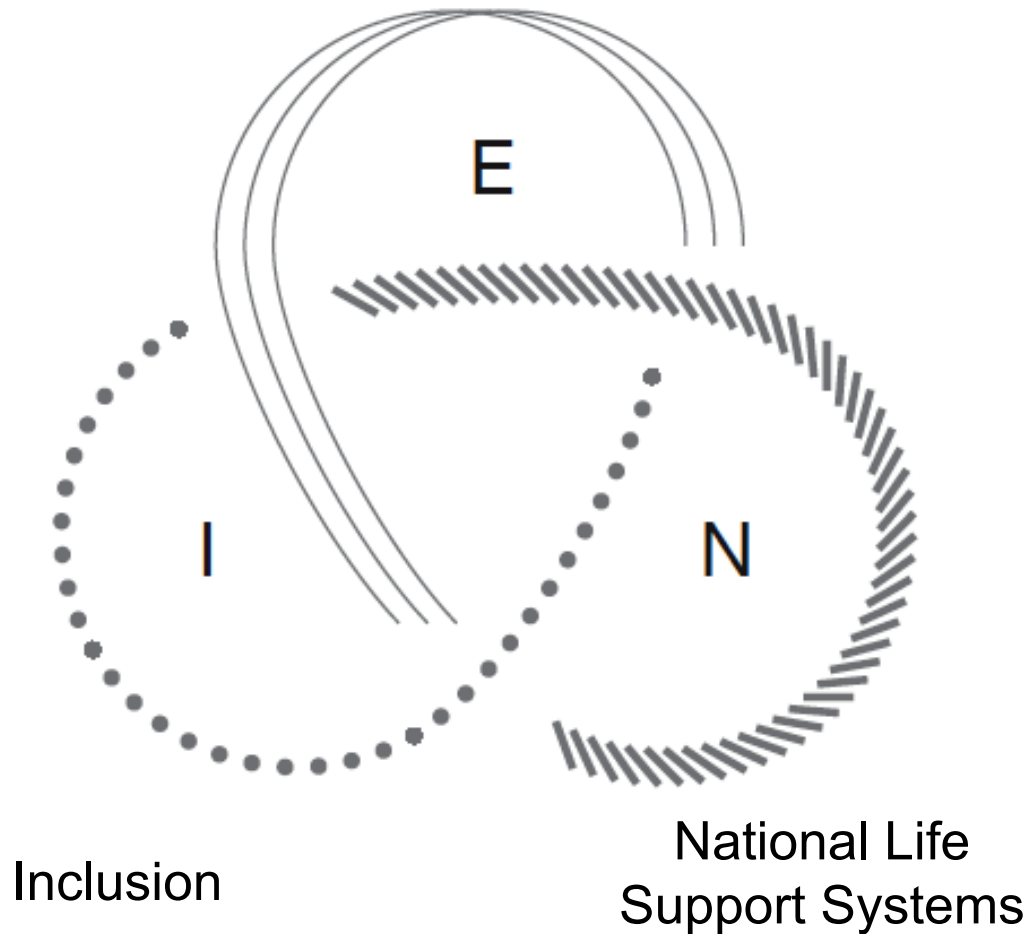

- The development of integrated concepts for sustainable energy, mobility and resource management systems is vital to unlock the great potential for synergies and co-benefits
- Enabling local authorities to take the lead on for inclusive well-being and sustainable development paths is the vital next step to deliver on the New Urban Agenda

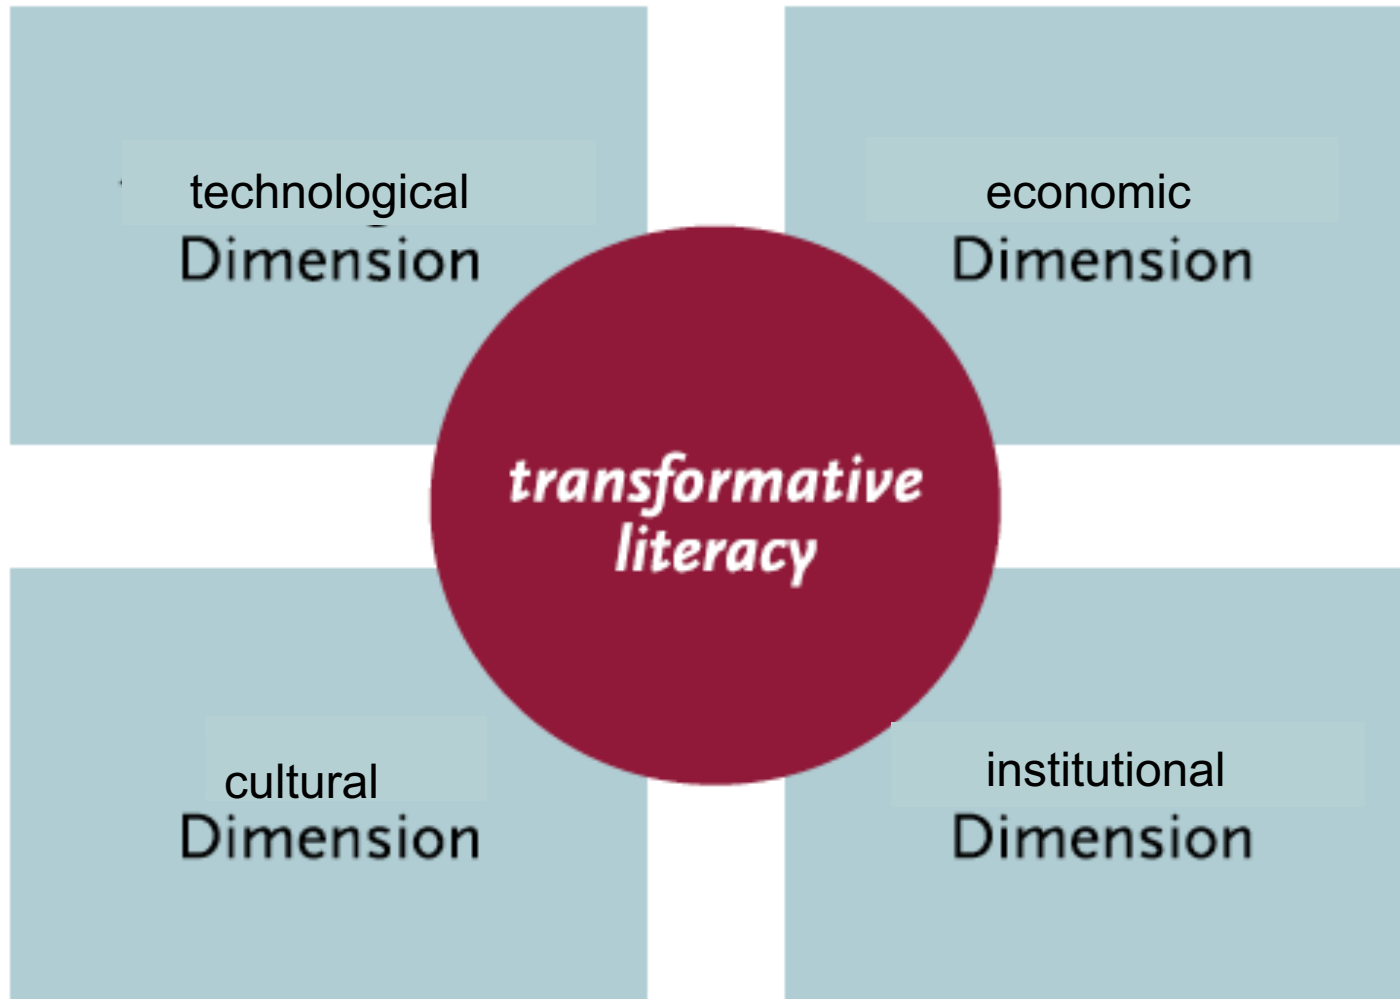

# Humanity on the Move

## Normative Compass for Sustainable Cities

„Eigenart“

# Developing a “Transformative Literacy” for reaching Sustainable Cities

# Urban Pathways: Launch of a new Partnership

- New project funded by the German Ministry for the Environment
- Delivered in a partnership with UN-Habitat, the Wuppertal Institute and UN Environment
- Dedicated to boost implementation action in urban energy, mobility and resource management systems in Asia, Africa and Latin America

Supported by:

based on a decision of the German Bundestag
